TELEFORK

# Automated Pallet Loading & Unloading Solutions

Intelligent. Efficient. Reliable.

Smart automation that delivers  
speed, safety and reliability —  
every day.

# think blue

MADE IN INDIA & EUROPE

## TELEFORK

An intelligent, automated system that ensures safe, fast and efficient loading & unloading with zero manual effort

### — The Automated Process —

#### 01 ALIGN

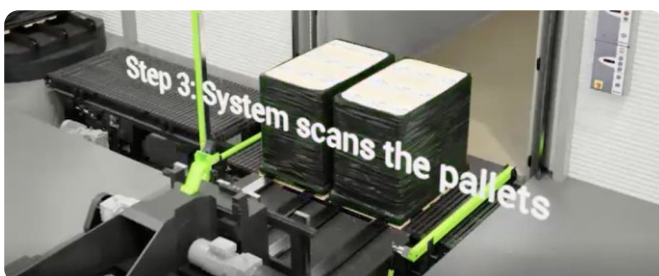

System aligns with trailer/container  
(height & angular alignment)

#### 02 INFEEED

Pallets fed via conveyor / forklift

#### 03 PICK & PAIR

System picks & pairs two pallets at a time

#### 04 LOAD / UNLOAD

Pallets are loaded / unloaded efficiently into truck  
/ container

# think blue

MADE IN INDIA & EUROPE

Intelligent. Efficient. Reliable.

Smart automation that  
delivers speed, safety and  
reliability —every day.

Adjust the loading system to your needs

## Safety & Technology

LIDAR & multiple safety sensors for obstacle detection and safe operation.

Safety fences, light curtains and emergency stops for maximum protection.

High performance servo drives for smooth and accurate movement.

Continuous self-diagnostics for reliable and uninterrupted operations.

## Specifications At A Glance

Throughput

Min. 2 trucks / Hr (24 pallets each)

Alignment

Automated Height & Angular alignment

Infeed by

Forklift / ASRS

Compatible Trailers

Flatbed trailers & Shipping containers

Truck / Container Length

Upto 40 ft

Power Supply

415V, 50Hz, 3Ph

## Built To Integrate. Designed To Perform.

Seamlessly integrates with your existing systems for smarter operations and full visibility.

ASRS

SAP

ERP

WMS

## Ideal For

Flatbed  
Trailers

Shipping  
Containers

Factories,  
Warehouses  
& Distribution  
Centers

# think blue

Intelligent. Efficient. Reliable.

## KEY ADVANTAGES

Load & Unload  
Trucks/Containers  
in Minutes

Improve Loading &  
Unloading Safety

Ability to Cater to  
Peak Throughputs

It can Load and  
unload flatbed trucks

Lower  
Operating Costs

Reduce Loader  
Dependency

Minimize Forklift  
Traffic

Smaller  
Footprint

## Automated Pallet Loading & Unloading Solutions

### SMART AUTOMATION

Advanced technology that  
drives speed, safety and  
reliability

### BUILT FOR SAFETY

Engineered with precision to  
protect people and cargo.

### MAXIMIZE EFFICIENCY

Optimize operations and reduce  
downtime every day.

### SUPPORT YOU CAN COUNT ON

Dedicated support whenever  
you need us.
